PROFESSIONAL SUMMARY

Software Developer with 2 years of experience building and improving web applications, with a focus on Angular frontend development and C#/.NET application development. Experienced in responsive UI implementation, REST API integration, dynamic dashboards, data visualization, and troubleshooting frontend issues. Focused on clean, maintainable code, performance, usability, and reliable delivery.

TECHNICAL SKILLS

Frontend	Angular, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, responsive UI
Backend	C#, .NET, ASP.NET Core, REST API development/integration
Database & Data	SQL Server, Entity Framework Core, JSON, GeoJSON
Mapping & Visualization	ArcGIS/Esri, OpenStreetMap, GIS route layers, dashboard KPIs
Tools & Practices	Git, API debugging, browser developer tools, testing, technical documentation

PROFESSIONAL EXPERIENCE

Software Developer | 1 Years' Experience

Neotec | *[05/2025- 10/206]*

- Develop and enhance web application interfaces using Angular and TypeScript, with attention to responsiveness, readability, and maintainability.
- Work with C#/.NET application code and REST APIs to support reliable data flow between frontend components and backend services.
- Integrate API-driven data into dashboard views, filters, KPI summaries, and map visualizations.
- Investigate UI and integration issues, validate API responses, and improve loading and rendering behavior.

SELECTED PROJECT

Fiber Rollout Dashboard & GIS Map Integration•

Integrated and refined a fiber-rollout dashboard map using Angular, dynamic GeoJSON route data, and ArcGIS/Esri and OpenStreetMap basemaps.

- Worked with contractor, ring, project, and phase filters to display relevant route data and interactive map layers.
- Improved map usability through route highlighting, clickable features, layer controls, loading/error handling, and dashboard-oriented data presentation.
- Kept existing dashboard data and backend behavior in scope while focusing changes on the frontend and map experience.

EDUCATION

B.Tech — Pursuing in 3rd Year

Higher Secondary — 2024

CERTIFICATIONS & ACHIEVEMENTS

Python Programming Course • Ethical Hacking (CNSP, CISCO, CCEP, CSSO) • Digital Forensics & Incident Investigation • Certified Red Team Operations Management (CRTOM) • Capture The Flag (CTF) Practical Training • Winner — CTF Competition (Logic Arena – Sistec GN)
